

LETTER TO PARENTS

Dear Parents and Guardians,

Engineers week is coming, celebrate with us from March 2 - 8! Engineers Week is a nationwide campaign to raise the profile of engineering and showcase the opportunities in a dynamic industry.

Coordinated by the Engineers Ireland STEPS programme, the week is an opportunity for the community to celebrate the contribution of engineering through hundreds of events. Engineering is a rewarding and diverse career choice and currently the demand for talent outweighs supply. A survey conducted by Engineers Ireland outlines that over 6,000 new engineering jobs are planned for next year alone. It's important that young people have positive and engaging experiences with STEM, access to role models and develop necessary skills to foster a problem solving and innovative society.

How to get involved?

- Download fun engineering challenges to execute at home. Visit www.engineersweek.ie
- Show the award winning Engineering Documentary: Dream Big which can be streamed on Netflix!
- Family events are running throughout Ireland during the week
- Share your updates on social media #EngWeek19
- Are you an engineer? Organise an event in your local community! Volunteer to execute a classroom visit, careers talk or facilitate an Industry site tour.

Thank you for your support,
The STEPS Team at Engineers Ireland
